

## Underground Light LED IP65

IP65 Mains Voltage Stainless Steel Underground Lights

Light source: LED array  
Lamp light output: 400-500 lumens  
Central intensity: 1,200-1,600 cd (depending on lamp cover types and LED arrays with different color temperature)

Input voltage: 100-240V AC driver inside. Easy to connect with grid.

Cool touch (low temperature of lamp housing)  
Lightening proof/overload & over temperature protection/short-circuit protection/surge protection

Code	Model	Input Voltage	LED Power	Lm/W	Ra	Beam Angle	Cut out	IP Rating
io-103001	UGR	100-240V AC	7W	450	>80	20°	80mm	IP65
io-103002	UGS	100-240V AC	7W	450	>80	20°	80mm	IP65
io-103003	UGRX	100-240V AC	7W	450	>80	20°	80mm	IP65

## Steplight LED IP54

IP54 Low voltage Aluminum die casting Step lights

Light source: LED array  
Lamp light output: 260-360 lumens  
Input voltage: 12V AC/DC ( induction transformer) matched with electronic transformer (tailor-made IC solution for customized requirement to further improve system efficiency)  
Professional thermal management solution  
Easy to use. Plug & Play! Downward compatible with G4 lighting system

Code	Model	Input Voltage	LED Power	Lm/W	Ra	Beam Angle	IP Rating
io-103004	SPR	12V DC	5W	300	>80	120°	IP54
io-103005	SPS	12V DC	5W	300	>80	120°	IP54
